Terms and Conditions

This web service is used to return a list of the terms and conditions that the Billdozer Client has configured to be agreed to by the subscriber during the subscription process.

You can use the information in the response to display to your clients.

Below please find:

1. The url to call to get a list of terms and conditions.
2. Sample json request message and json returned results for both failure and success messages.
3. Tabular listing of the request and response parameters indicating the format of the data and whether the parameter is required or optional.
